

Variant Declaration of Equivalence

When applying to a PI Test Lab for PROFINET compliance certification, manufacturers may have some variants of the device under test that could be certified at the same time. These variant devices with only a few distinguishing characteristics may be tested at the customer's lab. The Test Lab may take tests results from the customer to satisfy the test requirements of these variants, or may require a Declaration of Equivalence in lieu of test results for variants with identical interface, port, and application characteristics.

An example DoE is attached.

Variant Declaration of Equivalence

COMPANY REPRESENTATIVE
COMPANY NAME
COMPANY ADDRESS

DATE

The PROFI Interface Center
1 Internet Plaza
Johnson City, TN 37604 U.S.A.

To whom it may concern:

We declare that the device tested on our premises, DEVICE NAME, is mechanically, electrically and programmatically identical to the device submitted for PROFINET certification, DEVICE NAME. All exceptions to this declaration are covered in the table below.

| PIC Test Number | Vendor ID | Device ID | Order ID | DAP Module ID | Identical Interfaces? |
|-----------------|-----------|-----------|----------|---------------|-----------------------|
| PNxxx-x | 0x1234 | 0x1234 | EXAMPLE | 0x12345678 | Choose an item. |
